The "Luk Chiu Kwan Hung's Child Development Research Center," an early childhood education organization, was founded at the home of Dr. Angela Luk as a non-profit organization. Opposite the beautiful Victoria Park and conveniently located in Causeway Bay (Tin Hau MTR station), the Center passionately promotes child development and parent education.

In order to continue the efforts of ongoing early childhood development research, the LCKH Center exchanges and records data from other centers/schools and from our own classes in order to produce the most updated information possible. Thanks to parents and teachers, we are able to provide early childhood education seminars, workshops, and special interest classes meticulously designed to fulfill children's needs. During this upcoming promotional period, the Center allows children to experience the various courses listed below. Through a collective effort, we are able to further contribute to our findings in hopes of improving education for future generations.
